Acronis Cyber Protect Cloud

One Platform, One Agent, All within One Protection Plan. Complete coverage of NIST framework: Govern, Identify, Protect, Detect, Respond and Recover

DATA PROTECTION		CYBERSECURITY		OPERATIONS	
Backup	**Disaster Recovery**	**Detection and Response**	**SaaS Security**	**RMM**	**PSA**

Backup

Standard Backup
- Backup of 25+ workload types
- Local and cloud storage
- Encryption and deduplication
- Ransomware-proof backup

- **Microsoft 365**
  - Exchange Online, SharePoint Online, OneDrive, Teams, OneNote
  - Email Archiving
  - Group management

Advanced Backup
- One-click mass recovery
- Continuous data protection
- Backup frequency for Microsoft 365 and Google Workspace
- Off-host validation, replication, and conversion to VMs
- Support for additional workload types
- Backup notarization

Disaster Recovery

FREE
- Test failover
- Cloud-only VPN connection

Advanced DR
- Production and test failover to Acronis Cloud
- Orchestration with runbooks
- AI-assisted Automated test failover
- Fast Automated Failback with near-zero downtime
- Multiple connectivity options:
  - IPsec Multisite VPN, L2 site-to-site open VPN, Cloud-only VPN

Detection and Response

FREE
- AI-based anti-malware protection
- #CyberFit score (Security posture assessment)
- Device control

Advanced Security + EDR
- Gen AI-guided incident investigation, analysis, automated response
- Single-click response, including attack-specific rollback and recovery
- Next Generation Antivirus (NGAV)
- Anti-ransomware protection
- 0-day and exploit protection
- URL filtering
- Anti-malware scans of backups

Advanced Security + XDR
- Includes all the features of Advanced Security + EDR
- Extended endpoint protection with visibility and response across most vulnerable attack surfaces - email, identity, Microsoft 365 apps
- Gen AI-guided incident investigation, analysis, response and recovery

Advanced Security + MDR
- 24/7/365, Continuous monitoring with expedited investigation from security analysts
- Event triage, prioritization, and rapid response including recovery

Advanced DLP
- Control sensitive data transfers across local and network channels
- Pre-build data classifiers for common regulatory frameworks
- Automatic client-specific DLP policy creation and extension

SaaS Security

Advanced Email Security
- Phishing and Quishing prevention
- Business Email Compromise prevention
- Malware protection
- APT and zero-day protection
- Account takeover detection
- Incident response service
- Microsoft 365, Google Workspace, Exchange and any SMTP supporting email service

Advanced Collaboration Apps Security
- Microsoft 365 SharePoint, OneDrive and Teams security protection
- Malware protection
- APT and zero-day protection
- Incident response service

Security Awareness Training
- Rich and engaging library of training courses
- Phishing simulation and exercises
- Mobile-friendly learning experience
- Available in multiple major languages

RMM

FREE
- **Endpoint**
  - Device Sense™ device discovery
  - Hardware inventory
  - Vulnerability assessment (Windows/Mac/Linux)
  - Remote desktop (RDP)
- **Microsoft 365**
  - Multi-tenant M365 management
  - Security posture baselines
  - On-demand security audits
  - Baseline deviation alerts
  - M365 user onboarding

Advanced Management - Endpoint
- Software inventory
- Vulnerability assessment (third-party apps)
- Automated patch management
- ML-based monitoring
- Software deployment
- AI-enabled remote scripting
- Automated pre-patch backup
- HDD health monitoring
- Next-gen remote desktop and assistance (Win/Mac/Linux)

Advanced Management - Microsoft 365
- Continuous monitoring of security posture
- Automatic and manual remediation of risks
- M365 user offboarding

PSA

Advanced Automation
- Integrated ticketing
- Automatic time tracking
- Billing and invoicing
- Contract and SLA management
- Stock inventory management
- KPI reporting
- Integrated quoting
- Project management
