

We keep you safe and we keep it simple

Our Antivirus provides powerful, layered protection against all types of malware such as phishing attempts and trojans designed to steal your banking data. It makes short work of ransomware. And unlike some security software, it won't slow you down. Whatever you do online, your computer will be fast, clean and malware-free.

Choose the BullGuard protection that's right for you

Simple, multi-layered protection

- ✓ Blocks malware and phishing emails
- ✓ Browse, shop and bank with confidence
- ✓ Friendly 24/7 support

Installation

Installing BullGuard on PCs with Windows® 10, 8, 7, VISTA

1. Close all applications that are open and save unsaved files and documents.
2. Open your Internet browser and go to **www.bullguard.com/AV-install**
3. Click on the download button.
4. Follow the screen prompts to install BullGuard.
5. Register your account and enter the license key found on the flap below.
6. After registration, you will need to restart your computer to complete the BullGuard installation.

Important!

BullGuard detects well-known security software that may be installed on your computer. We suggest that you remove it before you install BullGuard. You can do this through the Control Panel on your computer. If you don't remove the existing software, you may find you have difficulty implementing BullGuard or your computer runs very slowly as a result of software conflicts.

After installation

Re-installing BullGuard

Should you need to re-install BullGuard on equipment that has previously had BullGuard installed, simply log in with your username and password when prompted.

Warning!

To avoid abuse of your subscription rights, do not share your account details with other people. Abuse of your account is detectable and will result in the cancellation of your BullGuard subscription.

Registration and licensing

About registration

Registering an account is mandatory when installing BullGuard and requires an Internet connection. When registering, you must use a valid email address and choose a password. No other personal information is required.

About the license key

You will find the license key printed on the flap. As soon as the license key has been used, your subscription to BullGuard is tied to the email address you have registered and not to the license key. The license key can only be used once. However, make sure you do not discard it after use as we may need it to verify account ownership.
