

With greater protection, greater speed, and more control—2019 is our best edition yet!

SUPER ENHANCED Protection

- **Revamped Vulnerability Scanner**
A redesigned interface enables users to spot security problems at a glance. Issues such as missing Windows security updates and poorly configured Autorun settings can be directly addressed from the interface.
- **Enhanced Behavioural Detection**
BullGuard's Sentry behavioral engine now receives continuous daily updates, improving accuracy and its ability to detect and block the very latest threats.
- **Cloud-based analysis reduces false positives**
Provides continuous user protection without the need to download security updates.
- **Network Safety Check**
A new alert warns users whenever they connect to an insecure network with no password protection or inadequate encryption.
- **Disable AutoRun for USB drives and other removable media**
Ensures Malware will not run automatically when a USB drive or similar is connected.

IMPROVED Performance

Smoother and faster with less CPU usage

- Blocked 100% of real-world malware in recent tests run by AV-Comparatives.
- Chalked up 100% detection of prevalent malware based on 5,565 samples run by AV-TEST.

SUPERCHARGED Game Booster

- **Total protection with no interruptions and faster game play – proven!**
Award-winning gaming rig builder ChillBlast tested the performance of Internet Security from BullGuard, Norton, McAfee, Kaspersky, AVG and Windows. Not only did BullGuard come out on top, but our Game Booster made game play even faster than a system with no antivirus installed.

Ronald Schuyten, General Manager, Ataf Compu & Co, Brussels, Belgium

ENHANCED

Detection and Protection

Improved features give users more control, protection and performance. Giving peace of mind for the user.

IMPROVED

Game Booster

Industry leader for fast and safe gaming – Game Booster optimizes CPU performance while blocking pop ups and other annoying interruptions. Noticeably smoother gaming without any lag.

Flexible Purchase and Resell Options

- ESD for pre-install.
- OEM for attach opportunities.
- Retail boxes for standalone sale.

Premium Protection

No one goes further than BullGuard to protect users' computers, tablets, phones and their home's connected devices from hackers, viruses, online fraud and identity theft.

Internet Security

BullGuard Internet Security is consistently ranked the best protection against all types of malware including ransomware and newly released variants which are normally difficult to detect.

Antivirus

Our award-winning Antivirus includes Behavioural Detection and Signature-based Detection, providing a virtually impenetrable, multi-layered defence system for PCs.
