- [BUGFIX] fix parsing Dictionary<long,string>by Json.Net
- [BUGFIX] KM: fix bool.Parse in KM library exception
- [IMPROVEMENT] add current_xx parameters for hours, minutes and seconds

v 6.04
- [IMPROVEMENT] Accounting for network devices by preview generator pages check
- [FEATURE] Support if Fiery accounting
- [BUGFIX] LDAP fix for missing controls etc
- [FEATURE] Quotas support for prints in RBE
- [BUGFIX] Xerox 4265 - first upload of scan template causes another error

- [BUGFIX] fixes in authentication (LDAP auth / unauthorized access for KM)

v. 6.01
- [BUGFIX] Repair support for IPP 1.0

v 6.0
- [BUGFIX] Saving JBA logs to a temporary folder
- [BUGFIX] Fixed errors when printing to the Direct queue.

v 5.15
- [FEATURE] Added device name for unauthorized access

v 5.14
- [FEATURE] Automatic LDAP synchronization
- [BUGFIX] Change the expiration interval for guest account in Print connector.
- [BUGFIX] Fix automatic reports when the turn of the year.
- [BUGFIX] Login for LDAP users in mobile app
- [BUGFIX] Delete jobs in Android older than 5.0
- [EXTENSION] Extract login from Job name
- [EXTENSION] Automatically retrieve serial number from device

v 5.12
- [FEATURE] Added user import from OpenLDAP
- [IMPROVEMENT] Improved user synchronization speed
- [FEATURE] Import only allowed users.
- [BUGFIX] Fixed a synchronization of the complete structure of users.
- [BUGFIX] Import only selected groups from LDAP
- [IMPROVEMENT] Added member group to user detail

v 5.11
- [BUGFIX] Fix device monitoring when unavailability of devices.

v 5.10
- [FEATURE] Demo content
- [FEATURE] Card conversion
- [FEATURE] Device monitoring
- [FEATURE] Offline operation for OptimiDoc Print Node
- [FEATURE] Multiple scan destinations & notifications
- [FEATURE] Scan delivery notification
- [FEATURE] Project accounting
- [FEATURE] Device serial number
- [FEATURE] Link to device web interface

- [FEATURE] WebDav scan delivery for KM
- [FEATURE] Select all button in KM terminal
- [FEATURE] Support of login extraction (SAP, AS400 etc)

v 5.07
- [FEATURE] Mail destination attachment limit
- [FEATURE] Document separation – (Barcode, Blank page, number of pages, zone)
- [FEATURE] Print job assignment

v 5.05
- [FEATURE] Distributed technology – OptimiDoc Print Node
- [FEATURE] Rules for printing
- [FEATURE] Multiple OCR engine pool in same time

v 5.04
- [FEATURE] Automatic reporting
- [FEATURE] PDF export of web reports
- [BUGFIX] License update increase a total number of device licenses
- [BUGFIX] Colour scanning on old Konica Minolta models

v 5.03
- [FEATURE] Completely new web report including management overview, charts, table sorting, export to excel and word
- [IMPROVEMENT] Improved Excel reporting with new layout
- [IMPROVEMENT] Improved performance of reports
- [IMPROVEMENT] Extended amount of decimal spaces to 3 (especially for EU region)
- [FEATURE] Preauthorization device setup
- [FEATURE] JetDirect job delivery forcing for old Xerox models.
