YSoft SafeQ 5 - Release notes

April 01, 2020

1 MAINTENANCE UPDATE 79 (04/03/2020)

Warning:

Due to a Java platform change, a direct update from YSoft SafeQ 5 MU48 and lower, to YSoft SafeQ 5 MU70 and higher, is NOT supported. Installations with YSoft SafeQ 5 MU48 and lower should be updated to YSoft SafeQ 5 MU69 first. Then an update to the latest release can proceed.

Fixed:

- Java platform was updated to the latest minor version - Amazon Corretto 1.8.0_242.
- It could happen that an incorrect credit amount was shown in the Embedded Terminal for Fuji Xerox XCP when a user opened the embedded terminal print application after copying. It has been fixed in Embedded Terminal 2nd Gen.
