

## **YSoft SafeQ 5 - Release notes**

November 13, 2019

## 1 MAINTENANCE UPDATE 74 (11/15/2019)

**Warning:** Due to a Java platform change, a direct update from YSoft SafeQ 5 MU48 and lower, to YSoft SafeQ 5 MU70 and higher, is NOT supported. Installations with YSoft SafeQ 5 MU48 and lower should be updated to YSoft SafeQ 5 MU69 first. Then an update to MU74 can proceed.

- A list of supported operating systems for client application has been extended. The YSoft SafeQ Client application can now be installed on macOS 10.15 Catalina.
- The Cashdesk operator can now identify a new user via a card when the system property "onDemandPaymentAccountCreation" is enabled.
- Unnecessary scrollbars are no longer displayed in the "Wait a moment" window on the Embedded Terminal for Fuji Xerox.
- The User account in the YSoft Payment System can now be created even when the fields for the user's name and surname in the Management Interface are empty. The username field is used as a displayed name.
- The Embedded Terminal for Ricoh no longer displays incompatible jobs when the property "showIncompatibleJob" is disabled.
- The Logout button once again correctly ends the user session in the Embedded Terminal for OKI sXP2.
