

## **YSoft SafeQ 5 - Release notes**

June 22, 2020

## 1 MAINTENANCE UPDATE 82 (06/26/2020)

### Warning:

Due to a Java platform change, a direct update from YSoft SafeQ 5 MU48 and lower, to YSoft SafeQ 5 MU70 and higher, is NOT supported. Installations with YSoft SafeQ 5 MU48 and lower should be updated to YSoft SafeQ 5 MU69 first. Then an update to the latest release can proceed.

Due to Tomcat configuration improvement, it is recommended to manually update the *server.xml* when updating from YSoft SafeQ 5 MU79 and lower. Update Tomcat's *server.xml* as described in the article "Configuring SSL/TLS for Web interface".

### Fixed:

- Embedded terminal reinstallation on Xerox Altalink device with a newer firmware version (103.001.000.06000) proceeds without failure. (SBT-1303)
